# Organising your notes

Technique: Subdivide and Minimise

# Organising your notes

## Technique: Subdivide and Minimise

Skim quickly through the notes to be revised to prime your brain, reminding you of the work you did in class.

# Organising your notes

## Technique: Subdivide and Minimise

Skim quickly through the notes to be revised to prime your brain, reminding you of the work you did in class.

Now go through the notes again - this time separating the work into sections with headings on different pieces of paper.

# Organising your notes

## Technique: Subdivide and Minimise

Skim quickly through the notes to be revised to prime your brain, reminding you of the work you did in class.

Now go through the notes again - this time separating the work into sections with headings on different pieces of paper.

Make brief notes on each subject under the headings

# Organising your notes

## Technique: Subdivide and Minimise

Skim quickly through the notes to be revised to prime your brain, reminding you of the work you did in class.

Now go through the notes again - this time separating the work into sections with headings on different pieces of paper.

Make brief notes on each subject under the headings

Take a 5 minute break.

# Organising your notes

## Technique: Subdivide and Minimise

Skim quickly through the notes to be revised to prime your brain, reminding you of the work you did in class.

Now go through the notes again - this time separating the work into sections with headings on different pieces of paper.

Make brief notes on each subject under the headings

Take a 5 minute break.

Read through the notes highlighting areas of uncertainty.

# Organising your notes

## Technique: Subdivide and Minimise

Check back to your school notes / revision guide notes and make your new notes clearer in those areas

# Organising your notes

## Technique: Subdivide and Minimise

Check back to your school notes / revision guide notes and make your new notes clearer in those areas.

Shrink the notes. Use one or two **key words** to summarise each section - the full information will come rushing back.

# Organising your notes

## Application: Subdivide and Minimise

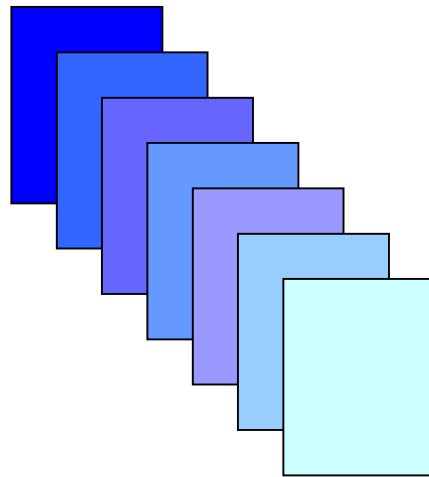

Shrink your notes down as you feel comfortable, checking that the keyword triggers work.

# Organising your notes

## Application: Subdivide and Minimise

Shrink your notes down as you feel comfortable, checking that the keyword triggers work.

Your notes might go from this:

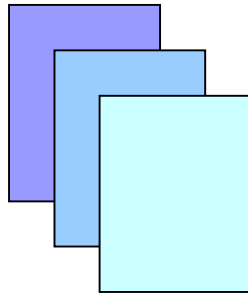

# Organising your notes

## Application: Subdivide and Minimise

Shrink your notes down as you feel comfortable, checking that the keyword triggers work.

To this:

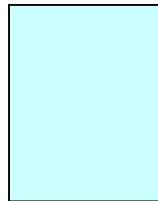

# Organising your notes

## Application: Subdivide and Minimise

Shrink your notes down as you feel comfortable, checking that the keyword triggers work.

To this:

# Picture it

Technique: Concept mapping

# Picture it

## Technique: Concept mapping

Use your notes to write down the main areas or concepts in a topic.

# Picture it

## Technique: Concept mapping

Use your notes to write down the main areas or concepts in a topic.

Write these as headings on a large sheet of paper turned landscape.

# Picture it

## Technique: Concept mapping

Use your notes to write down the main areas or concepts in a topic.

Write these as headings on a large sheet of paper turned landscape.

Draw connecting lines between the concepts labelling and explaining what the links mean.

# Picture it

## Technique: Concept mapping

Use your notes to write down the main areas or concepts in a topic.

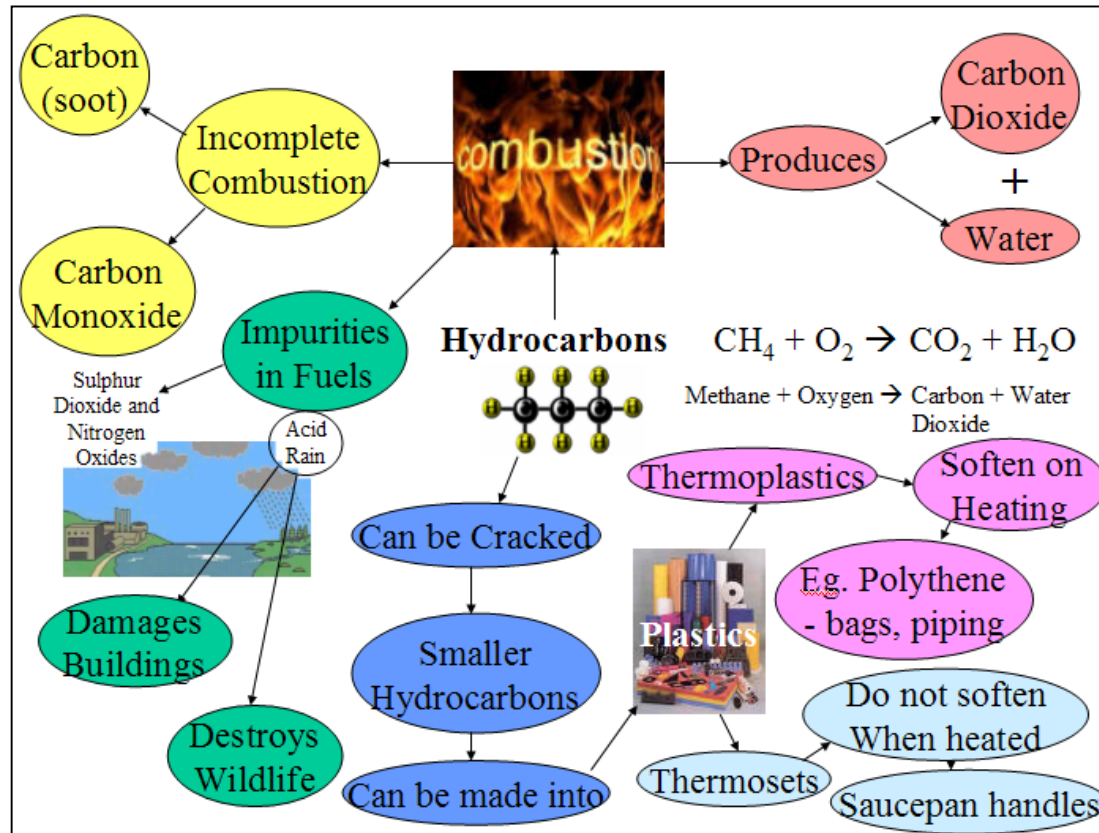

Write these as headings on a large sheet of paper turned landscape.

Draw connecting lines between the concepts labelling and explaining what the links mean.

Test yourself by making sure that you can explain and understand how the key areas in the topic link together.

# Picture it

## Application: Concept mapping

# Listen up!

Technique: Revision Playback

# Listen up!

## Technique: Revision Playback

Use the summary notes you have with the key information and explanations.

# Listen up!

## Technique: Revision Playback

Use the summary notes you have with the key information and explanations.

Recite your notes into an mp3 player whilst playing some relaxing music in the background.

# Listen up!

## Technique: Revision Playback

Use the summary notes you have with the key information and explanations.

Recite your notes into an mp3 player whilst playing some relaxing music in the background.

Play back your recording, listening carefully to the information.

# Listen up!

## Technique: Revision Playback

Use the summary notes you have with the key information and explanations.

Recite your notes into an mp3 player whilst playing some relaxing music in the background.

Play back your recording, listening carefully to the information.

Listen to the recording regularly allowing the information to become more and more familiar.

# Listen up!

## Application: Revision Playback

The hard work of this revision technique is done in the early stages.

# Fun with Words

Technique: Quiz Cards

# Fun with Words

## Technique: Quiz Cards

These pocket sized cards contain short sets of questions with the answers on the back.

# Fun with Words

## Technique: Quiz Cards

These pocket sized cards contain short sets of questions with the answers on the back.

They are easy to carry around and can be used to test yourself when you have a spare 5 minutes.

# Fun with Words

## Technique: Quiz Cards

These pocket sized cards contain short sets of questions with the answers on the back.

They are easy to carry around and can be used to test yourself when you have a spare 5 minutes.

Producing the cards is actually part of the revision process too!

# Fun with Words

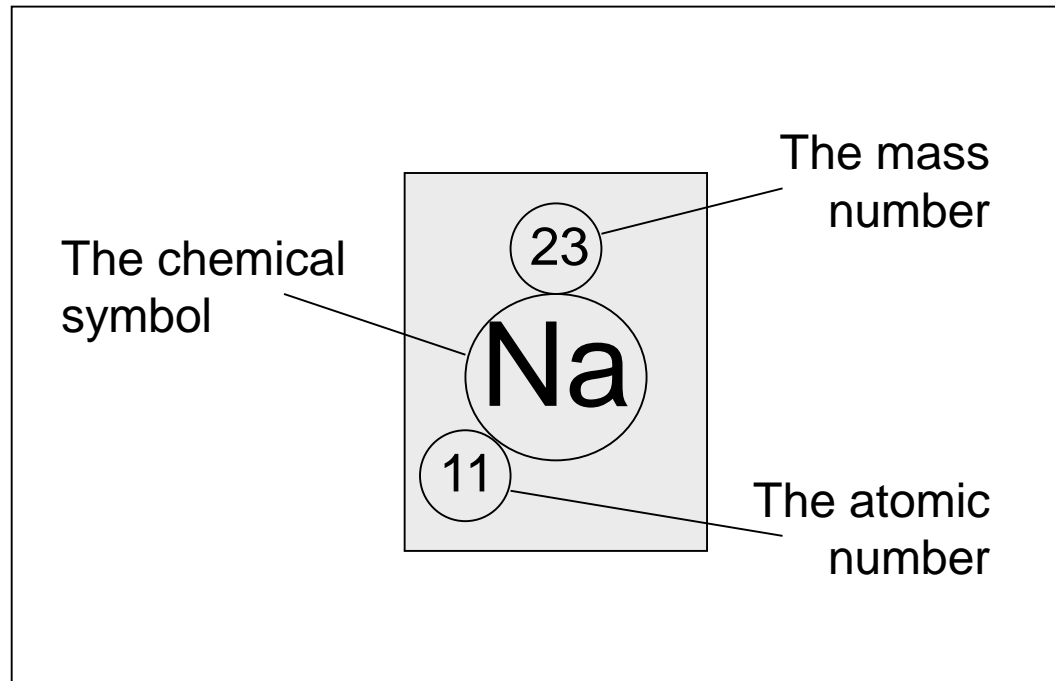

## Application: Quiz Cards

What information the Periodic Table gives us:

# Fun with Words

## Application: Quiz Cards

What information the Periodic Table gives us:

# Fun with Words

## Application: Quiz Cards

What information the Periodic Table gives us:

**The chemical symbol** - tells us what element it is

**The atomic number** =  
the number of protons (+) in the atom  
as well as the number of electrons (-) orbiting  
the nucleus

**The mass number** =  
the number of protons + the number of neutrons

# Fun with Words

Technique: Tabloid Headlines

# Fun with Words

## Technique: Tabloid Headlines

Using silly sentences can be a useful way of remembering lots of useful information.

# Fun with Words

## Technique: Tabloid Headlines

Using silly sentences can be a useful way of remembering lots of useful information.

*Remember how you memorized the colours of the rainbow?*

# Fun with Words

## Technique: Tabloid Headlines

Using silly sentences can be a useful way of remembering lots of useful information.

*Remember how you memorized the colours of the rainbow?*

Select the keywords from the topic you want to remember in a particular order.

# Fun with Words

## Technique: Tabloid Headlines

Using silly sentences can be a useful way of remembering lots of useful information.

*Remember how you memorized the colours of the rainbow?*

Select the keywords from the topic you want to remember in a particular order.

Use the initial of each of these words to make up a silly sentence.

# Fun with Words

## Technique: Tabloid Headlines

Using silly sentences can be a useful way of remembering lots of useful information.

*Remember how you memorized the colours of the rainbow?*

Select the keywords from the topic you want to remember in a particular order.

Use the initial of each of these words to make up a silly sentence.

Picture the scene that your sentence describes in your mind with the headline and repeat the sentence.
